

Key facts about the programme

- 1 Prepares students for high-level, professional roles in finance, banking and the public sector
- 2 Internships available
- 3 Mid-year and part-time enrolment options
- 4 Chartered Financial Analyst (CFA) exam pathway

Accommodation can be made if you are missing one of the above. Contact the MAFE Director for more information: mafecoordinator@canterbury.ac.nz

Support: The MAFE is designed to accommodate a variety of backgrounds. If you have questions about whether your background qualifies, email the MAFE Director.

Prerequisites: Students with a limited background in finance, economics, and/or statistics will normally take FIEC 601: Quantitative Finance and Economics, offered in January.

Applicants must have a completed undergraduate degree from a recognised tertiary institution.

- A degree with a University of Canterbury (UC) equivalent B average
- Completed university courses in business finance or financial management; intermediate-level microeconomic theory; mathematics with calculus; and statistics.

Graduates are work-ready with practical skills to succeed in roles within the public and private sector. MAFE graduates will be qualified to pursue careers in:

- Commercial and investment banks
- International consultancy firms such as PwC, EY, and KPMG
- Equity trading
- Corporate treasuries
- Government ministries and central banks
- Nonprofit organisations.

A Starting salaries are generally in the \$60,000 – \$70,000 range and increase rapidly thereafter.
