

What skills can graduates gain?

The World Economic Forum's Future of Jobs 2023 report identifies 10 key skills that graduates should focus on developing. These skills are categorized into three groups: digital skills, social and emotional skills, and cognitive skills.

Digital Skills:

- 1. Digital Literacy: The ability to use digital tools and technologies effectively.
- 2. Data Literacy: The ability to understand, analyze, and communicate data.
- 3. Digital Communication: The ability to communicate effectively using digital tools.
- 4. Digital Problem Solving: The ability to solve problems using digital tools.

Social and Emotional Skills:

- 5. Teamwork: The ability to work effectively with others in a team.
- 6. Communication: The ability to communicate effectively in a variety of contexts.
- 7. Critical Thinking: The ability to analyze information and make sound judgments.
- 8. Creativity: The ability to generate new ideas and solutions.
- 9. Resilience: The ability to bounce back from setbacks and challenges.
- 10. Adaptability: The ability to adjust to new and changing circumstances.

Cognitive Skills:

- 11. Problem Solving: The ability to identify and solve complex problems.
- 12. Decision Making: The ability to make sound decisions based on available information.
- 13. Learning: The ability to acquire new knowledge and skills.
- 14. Innovation: The ability to develop new products, services, or processes.

A L

These skills are essential for graduates to succeed in the rapidly changing and increasingly digital workplace. Graduates should focus on developing these skills through a combination of formal education, on-the-job training, and self-directed learning.
